Comment "lotion" for the link.

This body lotion from @araviorgania contains 5% lactic acid, 5% glycolic acid, and 1% BHA, which gently exfoliate your skin, making it ideal for strawberry skin.

Niacinamide helps brighten the skin, while ceramides and hyaluronic acid provide deep hydration and moisture.

To be honest, I really love this body lotion! It's perfect for summers—very moisturizing yet effective on bumpy skin and back acne.

A must-try for summer 2025! 🌞🌟
