One dab at night and my breakout calmed down majorly by morning - loving this one by [@try.moody](#) !

With sulphur, calamine & green tea, it's perfect for regular use if you have active acne.

A solid 10/10 product that not only treats but also prevents future breakouts.

Super affordable and available on [@mynykaa](#), [@blinkit](#) (delivered in under 10 mins!) and other marketplaces.
