Always an absolute honor to sit down with Tim, right here at the launch event in Apple Park..Every interaction with him is not only inspiring but also such a wonderful learning experience...Talking about technology always excites me, and when it's with a brand like Apple, the energy is on another level!

As always this [#AppleEvent](#) was also truly fantastic, bringing in some incredible innovations including the all-new [#iPhoneAir](#) and the super powerful [#iPhone17Pro](#) lineup...Tim and I discussed about a lot of exciting things, from the iPhone Air and its fresh approach, to Apple's growing vision for the Indian market, which is always close to my heart...
