Comment for links Part-1 of my top makeup recommendations for to be brides, bridesmaids and shoppers from the @myNykaa Pink Friday Sale Buy the ones that fits your skin type, your requirement and budget and trust me you won't regret spending your money on these makeup products.

I truly feel high-end complexion products are worth the investment— foundations, concealers and loose powders. Blushes and eye essentials, though, are done really well by affordable brands too. Feel free to chat in the comments
